

ANGELOPO

REFRIGERATED SALAD COUNTER SA90

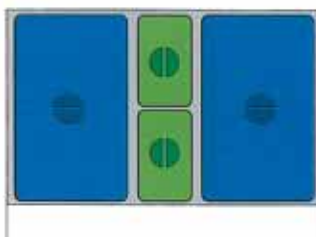

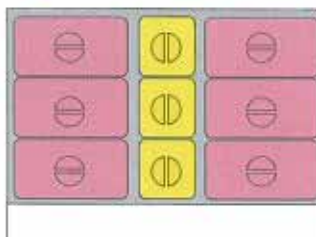

Portioning and preparation non-toxic nylon shelf.

The s/s cover enables a partial opening to reduce temperature dispersion

POSSIBLE CONTAINER COMBINATIONS FOR THE TOP SECTION

✓ 1/1 ✓ 1/2 ✓ 1/3 ✓ 1/6

STRUCTURE: the utilization of AISI304 stainless steel for the inner and outer structure ensures maximum hygiene and a high degree of solidity.

PRACTICALNESS: the cover, made of two sliding sections, the handy food non-toxic nylon preparation shelf, the high capacity (220 ltrs), together with the relatively small dimension, all combine to make the Angelo Po SA90 salad counter an ideal unit in the food preparation area or snack service area. The top well is designed to hold various sizes of GN containers while the underneath cabinet holds 1/1 GN containers.

FUNCTIONAL CHARACTERS: the injection in the backside of the evaporator all-in-one structure simplifies maintenance operations. The blower air refrigeration system ensures uniform temperature throughout (+2° +10° C); automatic defrosting gives constant performance. Expanded polyurethane "foamed in place" CFC-free insulation, 37 mm thick. The diamond refrigerating chamber bottom and the drain hole ensure an optimal cleaning. Adjustable plastic made little feet to suitable floor levelling.

CONTROLS AND VISUAL CHECK: ON/OFF switch and digital thermometer/thermostat are positioned on the front side.

SAFETY: the unit conforms with CE Standards and the refrigerant gas is R134A.

STANDARD EQUIPMENT: couple of stainless steel guides for each base section, 3 x 1/1 GN + 2 x 1/6 GN riffles to hold containers in the top section.

MODEL	SA 90	
External dimensions	l x p x H cm	90 x 70 x 85 h
Capacity	litres	220
Internal operating temperature	°C	+2 / +10
Refrigeration capacity	Watt	284
Absorbed power	Watt	300

Standard electric connection: 230V 1N 50HZ

04/03 (1000)
