

ANGELOPO

PEELERS

**MAIN FEATURES**

- constructed in AISI304 stainless steel throughout
- peeling model with abrasive surfaces consisting of:
  - abrasive-coated revolving disc
  - fully removable carborundum abrasive side band
- Mussel-cleaning model:
  - perforated basket and revolving plate
- "Poly V" belt drive
- Feet adjustable to floor angle
- Washing water intake through tap controlled by solenoid valve
- Tough methacrylate lid, removable and transparent for a clear view of all processing stages

**Safety**

- Fixed safety guard that slows down the outgoing product, directs it downward and prevents hands from touching moving parts
- Sensor that cuts out the cycle when lid is opened
- Electric parts protected in watertight box (IP56 protection). Low-voltage (24V) controls with NVR
- Sealed electrical button controls: start/stop, peeling cycle timer
- CE compliant
